How your 45 days work

Most owners learn marketing in pieces — one reel here, one agency there. We teach the **same standardised system** we run inside our own agency for paying clients: a fixed order of steps, a checklist for each step, a ready format for every asset — and on top of it, a **personalised strategy** for your own business. You never guess what to do next.

EVERY STEP COMES WITH

- ▶ A written SOP you can hand to your staff
- ▶ A ready template (ad, page, message, sheet)
- ▶ A checklist we tick off together in class
- ▶ One number to check that it worked

DAY 1-7 Strong Start

Your real numbers, your best customer, one strong offer, and your personalised strategy on paper. Google My Business and a WhatsApp lead system go live. **A real result from Day 1.**

DAY 8-15 AI Marketing

AI digital marketing in detail — research, offers, ad copy, images and a full 45-day content calendar built with AI, ready to publish.

DAY 16-24 SEO • GEO • AEO

Fix your website, rank on Google Search and Maps in your city, and get your business picked as the answer inside AI search. Reviews system set up.

DAY 25-32 Content & Shooting

Shoot and edit your own reels and product videos on your phone. Build a content bank so posting never stops — content that sells, not just looks good.

DAY 33-40 Meta & Google Ads

Your ads go live on a small budget — Meta for demand, Google for buyers already searching. Read the numbers, cut what fails, scale what works.

DAY 41-45 Your Growth Plan

WhatsApp marketing and follow-up automated, everything in one simple dashboard, and your own written 90-day growth plan to keep growing on your own.

WHAT YOU TAKE HOME ON DAY 45

Not notes — a running system

- ✓ Your personalised growth strategy
- ✓ A 45-day content plan made with AI
- ✓ A simple numbers dashboard
- ✓ A working website + WhatsApp system
- ✓ Live Meta & Google ads on your business
- ✓ SOPs + templates for your staff

"My competitor is online. I don't know how to fight that."

Your product may be better. Your price may be better. But the customer never sees you — they see whoever appears first on Google, Instagram and now AI search. Today the business that is **visible** wins, not the business that is oldest.

"दिमाग की बत्ती जलाओ, बिज़नेस बढ़ाओ।"

WITHOUT ONLINE PRESENCE

- × Customers only come by walk-in or reference
- × Sales go up and down every month
- × You compete on price and cut your own margin
- × No idea where your enquiries come from
- × Enquiries lost in a messy WhatsApp inbox
- × You depend on an agency and only hope
- × Your market shrinks every year

WITH A PROPER ONLINE SYSTEM

- ✓ New customers reach you every single day
- ✓ You can predict next month's enquiries
- ✓ You sell on trust and reviews, not discount
- ✓ You know your exact cost per customer
- ✓ Every lead is followed up on WhatsApp
- ✓ You control the ads — no one can cheat you
- ✓ You can sell beyond your city and country

A REAL EXAMPLE — TWO SHOPS ON THE SAME ROAD

Shop A — offline only

30 years old. 20–25 walk-ins a month, mostly old customers. No Google profile, no reviews, no ads. Festival season carries the year. Turnover is the same as three years ago.

Shop B — same product, online system

Google profile with 120+ reviews, ₹15,000/month ads, reels twice a week, WhatsApp follow-up. Now 150+ enquiries a month, orders from other cities, and a customer list they can sell to again.

Same road. Same product. The only difference is a system — and that system is exactly what we build with you in 45 days.
